SCOTLAND'S CURRICULUM IS CHANGING!

Education Scotland
Foghlam Alba

Scotland's school curriculum is changing and the improvements will be built on the **views**, **experiences** and **needs** of those who will be most impacted – including **young people**!

The process is called the **'Curriculum Improvement Cycle'**

WHAT'S THAT?

Think of it as a 10 year refresh for Scotland's school curriculum

10 YEARS?!

THAT'S BECAUSE CHANGE TAKES TIME

WHY IS IT CHANGING?

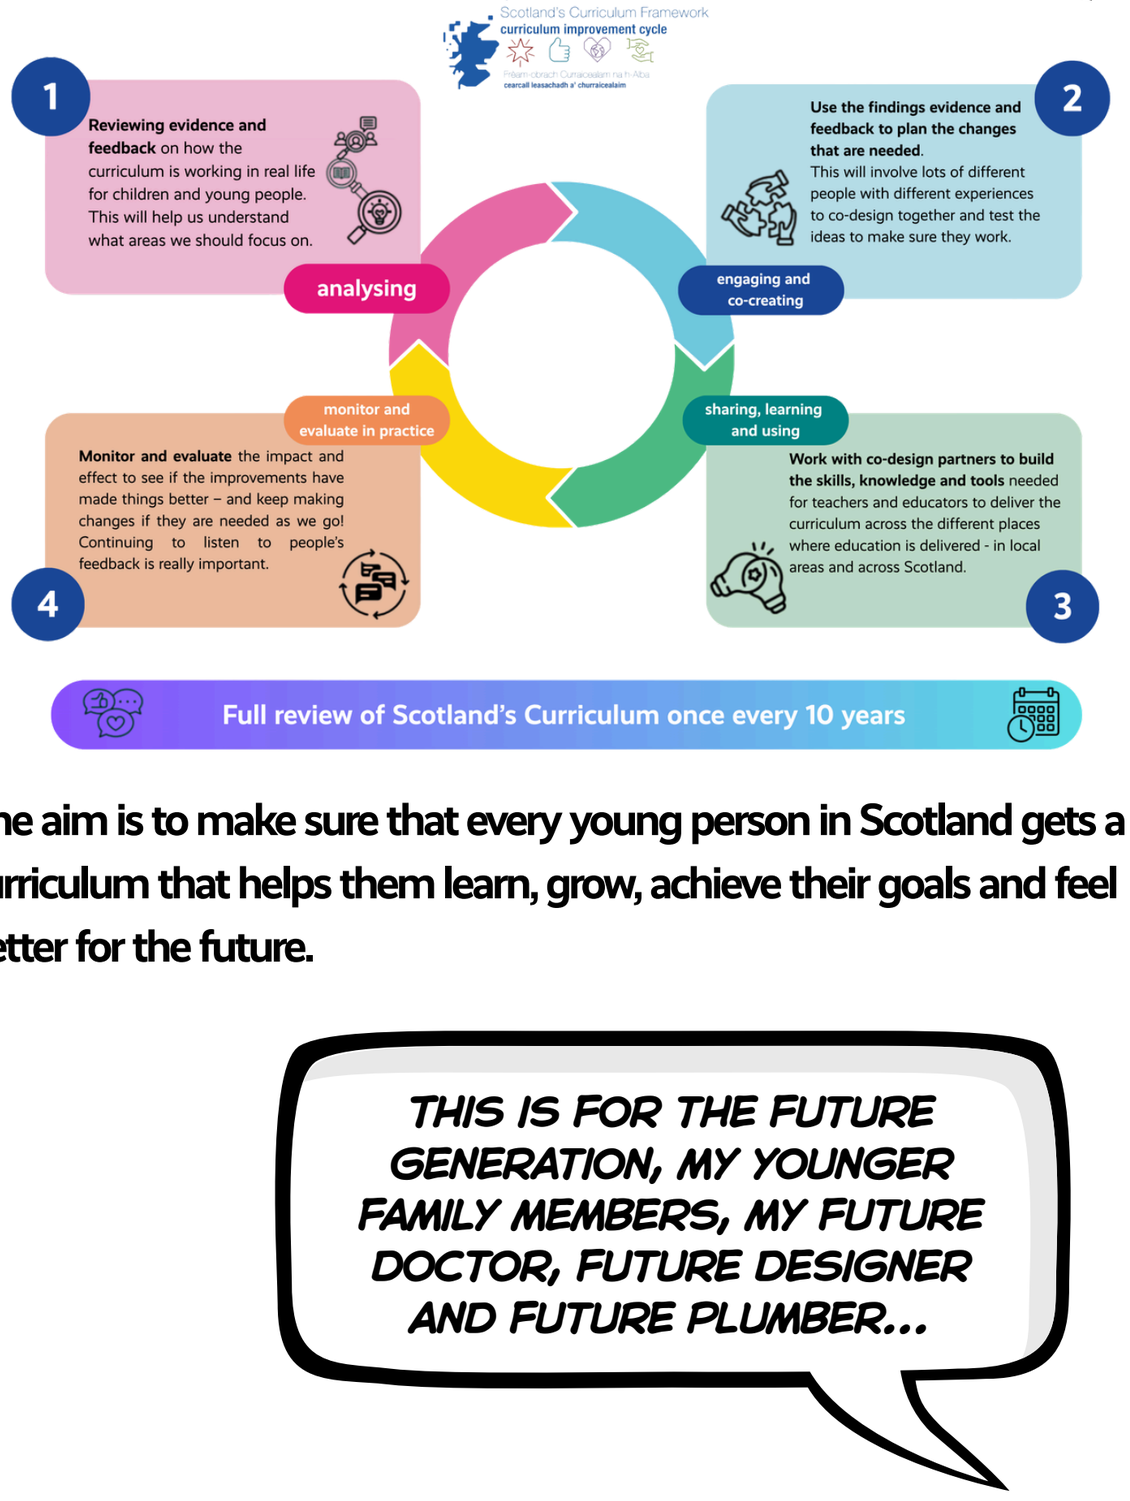

The world is constantly changing; society, technology and the skills we need for jobs are too. The education system needs to keep up!

Scotland's taking a closer look at what young people learn and they're asking, is this still working? What could be better and what will young people need for the future?

WHAT WILL THE IMPROVED CURRICULUM LOOK LIKE?

An improved curriculum will ensure that children and young people are able to gain knowledge, understand more about it and gain the skills to succeed!

The aim is to make sure that every young person in Scotland gets a curriculum that helps them learn, grow, achieve their goals and feel better for the future.

THIS IS FOR THE FUTURE GENERATION, MY YOUNGER FAMILY MEMBERS, MY FUTURE DOCTOR, FUTURE DESIGNER AND FUTURE PLUMBER...

If you want to find out more about the Curriculum Improvement Cycle and how you might be able to be involved, visit scotlandscurriculum.scot

Co-created with young people, supported by YOUNG SCOT
